We are strongly opposed to the Millennium Pipeline coming through the Piermont Marsh and Tallman State Park. This is a protected nature preserve. It is a unique area that should not be destroyed. This should not be considered as an alternative route.

To: Karl Gleaves, Ass't General Counsel
Governor George Pataki
Senator Hillary Rodham Clinton
Senator Charles Schumer
Representative Elliot Engel

We strongly oppose any proposed
pipeline through Tallman Mountain State Park.

These are unique environments
and they are legally protected.

We ask that you do everything in your considerable power to find alternative
solutions.

Susan & Christopher Lukas

Dear Mr Gleaves,

Hello. My name is Hailey Fyfe. I am 11 years old and would like to talk to you about the millennium pipeline. My mother just recovered from breast cancer. She told me that walking through Tallman State Park helped her recover. Please, Mrs. Clinton, putting a pipeline through the park and the marsh will destroy it's beauty. If the marsh is blasted through, wildlife will have nowhere to go. We are taught in school about preserving the environment, now you are planning on destroying one of the only places to walk along the water in Rockland County. Think about it. Also, during the winter my friends and I like to go sledding down the hill right next to the swimming pool. If you put a pipeline there we will not be able to sled there, or go swimming in the swimming pool.

My parents go walking in the park almost every day. The marsh air is very helpful for recovering sicknesses or just making you feel good. I personally think that if you put a pipeline through the park you will destroy love and beauty. Thank you for your time.

Sincerely,

A handwritten signature in black ink that reads "Hailey Klein Fyfe". The script is cursive and fluid, with the first letters of each name being capitalized and prominent.
